DETAILED ACTION

Response to Arguments

Applicant's arguments filed 7/26/04 have been fully considered and are deemed persuasive. Applicant has amended his claims to state that a single light source is utilized to illuminate both sides of a dual sided LCD display at the same time. This distinguishes applicant's invention from the referenced prior art.

Allowable Subject Matter

Claims 1-9 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 1, although there existed dual sided displays on mobile telephones at the time of applicant's invention, only one instance was there found where a single light source was utilized and that was for a computer where the illumination occurred one side at a time. Thus, the examiner is in agreement with the applicant that the use of a signal light source to illuminate both sides of a dual sided liquid crystal display of a folded type mobile telephone at the time of the applicant's invention was neither found, suggested, nor made evident by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
